DETAILED ACTION

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Yofu.

The patent to Yofu discloses an apparatus for providing information to a user device responsive to commands from the user device 11. The navigational device 14 receives information from the input section 22 and information transmission section 23. In regard to claim 2 there is a navigational aid server 12 that receives information from user device 11. In regard to claim 3 the shop side terminal 13 gives business information. The combined information of server 12 terminal 13 and navigational device 14 is communicated to terminal 11. In regard to claim 5 the positioning device 55 is a GPS. In regard to claims 6-8 the map matching, route following and interaction with the user are described in column 4, lines 40-65. In regard to the newly added limitations of the independent claims it is noted that the device 14 is installed in a vehicle and that portable medium 43a may be any of the devices recited in column 8, lines 55-60. The device 43a is adapted to be connected to the navigational device, as recited as an intended use.
